About VSOE 2024

The VSOE committee is excited to announce the upcoming third Symposium, with a focus on "Interdisciplinary and Integrated Solutions for Sustainable Offshore Infrastructure." This event is scheduled to take place in Hanoi, Vietnam. The aim of VSOE 2024 is to drive forward the sustainable development and resilience of offshore infrastructure while ensuring environmental protection and effective management of marine activities.

Building on the success of two previous symposia (VSOE 2018 and VSOE 2021/2022), VSOE 2024 will continue to serve as a dynamic platform for participants to share and discuss the latest advancements in offshore engineering, innovative technologies, and integrated approaches. The symposium is committed to fostering economic, reliable, and environmentally friendly solutions for the development of offshore energy and infrastructure.

VSOE 2024 invites researchers, practitioners, policymakers, and entrepreneurs to engage in this forward-looking dialogue. The symposium will provide opportunities to explore technological advancements, policy developments, and emerging trends in the field. It aims to stimulate the generation of new ideas, form strategic partnerships, and promote sustainable practices that will shape the future of offshore engineering, both in Vietnam and on a global scale.

TOPICS

- Advances in Offshore Geosciences and Geotechnics
- Environmental Challenges and Solutions in Offshore Engineering
- Foundation Engineering and Subsea Technologies
- Infrastructure and Interaction with the Marine Environment
- Offshore Wind Energy: Vietnam's Challenges and Global Trends
- Supply Chain Innovations for Offshore Renewable Energy
- Sustainability and Resilience in Offshore Engineering

KEY DATES 2024

- **March 1** : Abstract submission deadline
- **March 15** : Abstract acceptance notification
- **July 15** : Manuscript submission deadline
- **October 1**: Paper acceptance notification
- **December 12-14**: Symposium

CHAIRMEN

- Dr **DOAN Dinh Hong**, EDF Renewables, France
- Dr **NGUYEN Hoang Giang**, Hanoi University of Civil Engineering, Vietnam
